Description Provides data about the possible adverse events/reactions
resulting from being injected with a vaccine/experimental gene
therapy. Currently, this data set only includes information
from six reference sources. This full version of the
'jab.adverse.reactions' package, which is available on CRAN
<<https://CRAN.R-project.org/package=jab.adverse.reactions>>,
includes the pdf folder which contains all of the references
and also the public folder which has the data in the following
formats: CSV, JSON, and XML. Refer to the CITATION.cff file for
the complete citations of the reference sources. For
